## Measures against Infectious Disease:

*Hand, Foot, Mouth Diseases (HFMD), Severe Acute Respiratory Syndrome (SARS), Influenza A (H1N1) and others*

Dear Parents,

For your child's safety and as a precautionary measure against infectious diseases, we would like to request your participation in taking the following measures:

### **Berries**

- **Compulsory for all students to sanitize their hands**
- Temperature checks for all students, when necessary
- Students detected with fever or showing symptoms of infectious diseases will be isolated and parents will be contacted to send their child home immediately

### **Parents**

- Temperature to be taken before sending child to school, when necessary
- Send your child 10 minutes earlier to Berries and pick him up on time after his lessons
- Inform Berries if your child is diagnosed with infectious disease or showed related symptoms
- Keep Berries updated on your contact numbers and home address
- Submit Student's Travel Declaration Form to your respective Berries centre.

### **Children**

- Sanitize or wash hands regularly with soap and water
- Wash hands after going to the toilet
- Cover mouth and nose when coughing or sneezing and sanitize your hands after it.
- Inform teacher when you are not feeling well during lesson

**"Prevention is better than Cure!"**

**"预防胜于治疗！"**

We seek your understanding and cooperation during this period in order to maintain safe hygiene standards for your child to learn well. Any inconvenience caused is deeply regretted.

It is your responsibility to contact the respective centres should your child be diagnosed or is displayed symptoms of any infectious disease. Parents can claim a Berries Medical Voucher by informing the centres and providing necessary medical certification from the doctors.

Thank you

**School Management Committee**

**Berries World of Learning School**
